Purpose of This Guide

This guide explains exactly how to customize and share your Walk to Remember fundraising page using CanadaHelps.

This guide is written for participants who would like to personalize their fundraising page and share it with family, friends, and supporters to help reach their fundraising goals.

Step 1: Go to the Walk to Remember website

Visit our Walk to Remember website:

<https://www.bereavedfamilies.ca/walktoremember2026> and log in to your account using the same email address and password you used when registering for Walk to Remember.

Step 2: Locate the Page Customization Options

After logging into your fundraising page, you will see four options at the top of the page: Welcome, Details, Images & Videos, and Donations.

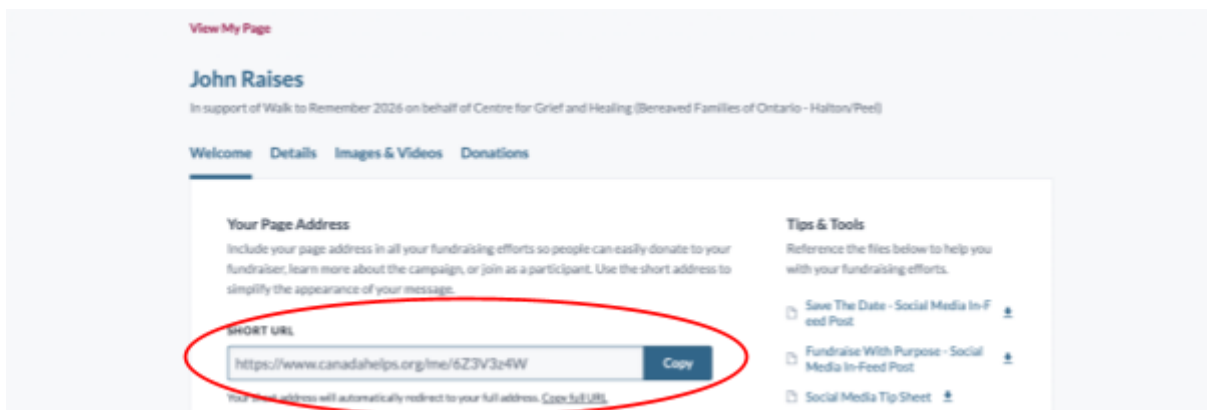

These options allow you to edit, customize, and manage your fundraising page.

Step 2: Copy and Share Your Fundraising Page Link

On the Welcome page, you will see a “Copy Link” option.

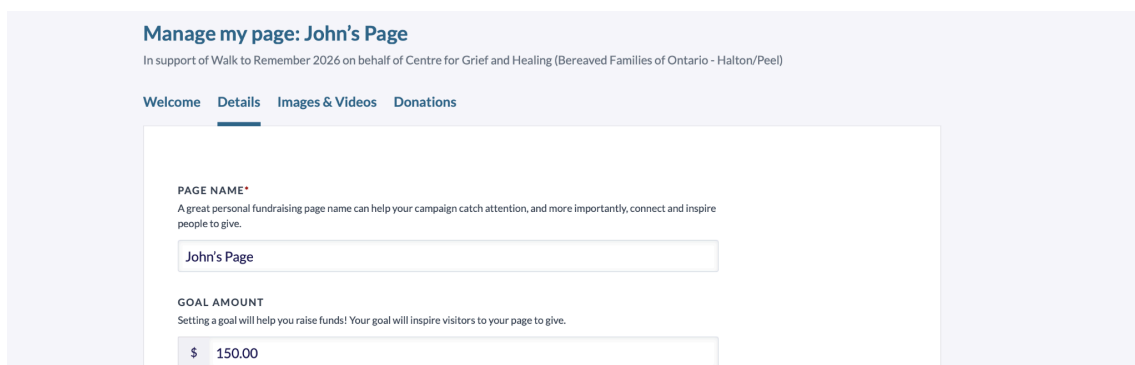

Click this option to copy the link to your fundraising page. You can then share or promote your page with friends, family, and supporters.

Step 3: Edit Your Fundraising Page Details

In the “Details” tab, you can make basic changes to your fundraising page.

This includes changing your page name, updating your fundraising goal amount, and editing other important page details.

In the “Images and Videos” tab, you can upload images, banners, or videos to personalize your fundraising page.

Adding visuals can help make your page more engaging and appealing to supporters.
